Issue 6
October 15, 2019

Development of Environmental Engineering Courses And Injection Of Climate Change Concept For Undergraduate Curriculum

Project Facts

Type: Erasmus+ Programme

Grant Holder: The University of Jordan (UJ)

Duration: 3 Years

Start Date: 15 October 2016

Subject Area: Environment and Climate Change

WELCOME TO THE EGREEN PROJECT

Welcome to the sixth issue of our Project Newsletter, providing you with the latest updates on EGREEN Project progress!

The newsletter contains information of what we have accomplished on the project, what we are working on now, what we plan to work on next and how the project is going in general. We also want to provide insight into the different aspects of the cooperation between the different Partner Universities. We hope you will enjoy reading this issue!

Seventh Steering Committee Meeting in Hamburg

The Seventh steering committee meeting for EGREEN Project was held on September 2-3, 2019 in Hamburg-Germany. It was hosted by Hamburg University of Technology and attended by 27 representatives from different project partners including Jordan, Syria, Portugal, Austria, and Germany.

The Steering Committee discussed the status and the work plan of the project activities. The meeting focused on the discussion and presentation of the tasks and activities of the work packages, also on the action plan for their implementation.

During the seventh steering committee meeting two parallel training workshops were held. The workshops covered the following topics:

- E-learning Training
- Monitoring and Evaluation

Student training workshop at Porto, Portugal

A training workshop for students was organized within EGREEN project at Universidade Católica Portuguesa during September 8-21, 2019.

The training focused on

- Introduction to major environmental challenge
- Environmental issues: water, soil, air.
- Wastewater treatment
- Soil rehabilitation
- Nature-based solutions for communities

Student training workshop at TUHH, Germany

A training workshop for students was organized within EGREEN project at Hamburg University of Technology from August 26, 2019 to September 6, 2019.

The training focused on energetic biomass utilisation

Student training workshop at Innsbruck, Austria

A training workshop for students was organized within EGREEN project at University of Innsbruck during July 1-12, 2019.

The training focused on Energy Efficiency in buildings.

Student training workshop at Höxter in Germany

Two-week training workshop for students was held in Ostwestfalen-Lippe University of Applied Sciences - Höxter in Germany, during July 1-12, 2019. The main purpose of the workshop is to allow students to do experimental investigations in the laboratory in the field of energy engineering and get introduction on the wastewater management and efficiency, meteorology and environmental monitoring systems, and thermographic sensors with drones.

Monitoring Visit

The national Erasmus+ office conducted a monitoring visit for EGREEN project (April 22, 2019) in presence of Mr. Omar Abu-Eid, a Program Manager at EU Delegation to Jordan.

In addition; the national Erasmus+ office team met the president of the University of Jordan to discuss the issues of the European projects.

Representatives from all Jordanian and Syrian partners have participated in the held management meeting in the morning and the monitoring visit in the afternoon and delivered presentations about EGREEN implementation and impact at their universities.

Training workshop

Training workshop for the technical staff on the installed weather station at the University of Jordan on 9 October, 2019.

Dissemination Activity

Water Energy Nexus conference in Dead Sea during November 4-5, 2019

Upcoming Meetings

The eighth steering committee meeting will take place at the University of Jordan in Jordan in March, 2020. The meeting will be held to discuss and follow-up the project deliverables.
