Alterações Climáticas - Formação de Professores da Jordânia e da Síria no âmbito do Projeto EGREEN

14.11.2019 09:00 — 16.11.2019 09:00

Edifício de Biotecnologia / Biotechnology Building

Co-funded by the
Erasmus+ Programme
of the European Union

A Jordânia e a Síria enfrentam sérios problemas relacionados com os recursos hídricos disponíveis, as alterações climáticas e a qualidade ambiental. Estes problemas exigem abordagens inovadoras de engenharia que tenham em consideração a particularidade das situações locais em que os projetos devem ser implementados.

O projeto EGREEN EGREEN: *Development of Environmental Engineering and Injection of Climate Change Concept for Undergraduated Curriculum: EU Experience for Jordan and Syria (573927-EPP-1-2016-1-JO-EPPKA2-CBHE-JP)* visa assegurar que as universidades na Jordânia e na Síria possam oferecer uma educação de alta qualidade e compatível com os padrões europeus, atendendo às necessidades do mercado da emergente sociedade do conhecimento, fortalecendo a área ambiental e recorrendo ao ensino a distância.

Além disso, o EGREEN pretende introduzir o conceito de alterações climáticas para formar líderes profissionais que possam atender às necessidades do mercado do país, bem como desenvolver e integrar nos programas de licenciatura nas universidades da Jordânia e da Síria uma componente laboratorial apropriada em tecnologias ambientais, alinhado com os requisitos de Bolonha.

Católica Porto Biotechnologia
11 de novembro às 17:58

EGreen: De 14 a 16 de novembro, recebemos professores da Jordânia e da Síria para ações de formação centradas nos temas "Alterações Climáticas" e "Conceção de Soluções Renováveis". O programa visa abordar diferentes tecnologias de e-learning a fim de facilitar a generalização dos programas educativos nas respetivas universidades. EGREEN Project Facebook

Link: <https://www.facebook.com/Egreen-Project-609610079229409/>

The image is a screenshot of a Facebook post from the 'Egreen Project' page. On the left, there is a sidebar with the page's profile picture (a circular logo with the word 'EGREEN'), the name 'Egreen Project', and a navigation menu with options: 'Página inicial', 'Publicações', 'Vídeos', 'Fotos', 'Sobre', 'Comunidade', and 'Eventos'. At the bottom of the sidebar is a green button that says 'Criar uma Página'. The main content area shows the post header with 'Gostei', 'A seguir', and 'Partilhar' buttons. The post itself is titled 'Egreen Project' and is dated '18 h'. The text of the post reads 'Training workshop in Porto about teaching using e-learning tools' and includes a link to 'Ver tradução'. The main image is a group photo of about ten people standing in a classroom. Below this are three smaller images showing participants at computers, with a '+11' icon indicating more photos.

IV) Certificate

Co-funded by the
Erasmus+ Programme
of the European Union

Porto, 17.11.2019

Certificate

Herewith I certify that

Loai Dabbour

has joined the following course in the frame of the ERASMUS PLUS Programme-EGREEN Project
Number: 573927-EPP-1-2016-1-JO-EPPKA2-CBHE-JP,
at Universidade Católica Portuguesa – Faculty of Biotechnology:

Name of the course: E-learning: Moodle Learning Management Systems

Date of lecture: 14th of November to 16th of November 2019

Content of the lecture:

What is Moodle?
Getting Started with Moodle.
The work environment of a Moodle Course.
The Course Seen by the Teacher.
Edit settings of a Course.
Participant Management of a Course.

Porto, 17.11.2019
