

## Dr. Hashem Alkhalidi

Dr. Hashem Alkhalidi is an associate professor at the Mechanical Engineering Department in the University of Jordan. He received his Ph.D. degree from Institute of Engineering and Computational Mechanics, University of Stuttgart, Germany in 2007. He worked in the field of parallel computations in contact dynamics of granular mechanical media. His research is also concentrated on solving nonlinear problems in solid mechanics and in biomechanics by investigating the dental implants using finite element technique. Dr. Alkhalidi is active in publishing articles in many local and international scientific journals as well as participating and attending many workshops, seminars and conferences. Dr. Alkhalidi is looking forward to have a real spot in the field of Energy, Renewable Energy and Green building.
