Department of Economics

**Biography: Hassan Harajli**

Hassan Harajli is the manager of the UNDP-CEDRO project and UNDP Energy Advisor since 2009. He is a holder of a PhD from the University of Bath in renewable energy policy and economics, an MSc from Imperial College in Environmental Technology (focus on environmental economics) and double undergraduate degrees from the American University of Beirut and the London School of Economics in Political Science and Environmental Policy with Economics, respectively. He has several peer-reviewed publications and several years of experience in environment-related consultancy. Mr. Harajli also lectures at the American University of Beirut (AUB) in energy economics and policy and environmental economics.”
