Department of Civil and Environmental Engineering

Dr. Issam Srour is an Associate Professor in the Department of Civil and Environmental Engineering at the American University of Beirut. His research focuses on the use of quantitative techniques and sustainability principles to solve real-world engineering and construction management problems. His work includes information, labor, and material management, as well as engineering education and ethics. Dr. Srour is an active member of the American Society of Civil Engineers (ASCE) and the Lebanese Order of Engineers. Dr. Srour earned MS and PhD degrees in Civil Engineering from the University of Texas at Austin. He also holds a BE degree in Civil and Environmental Engineering from the American University of Beirut.

Research Interests

Quantitative analysis of construction projects, construction labor, optimization, construction waste, sustainability

Teaching Interests

Construction Management, Sustainable Design and Construction, Pre-Project Planning, Alternative Dispute Resolution in Construction
