

Joseph Zeaiter
Associate Professor
jz08@aub.edu.lb

<http://website.aub.edu.lb/fea/publicprofile/Pages/profile.aspx?MemberId=jz08>

Department of Chemical and Petroleum Engineering

Research Interests

- Waste Pyrolysis (incl. Solar), hydrothermal carbonization, dry reforming.
- Solar energy storage and solar energy for chemical processes.
- Process Systems Engineering: modeling, advanced process control and optimization of complex chemical processes.

Expertise

Advanced Process Control and Optimization with several years of industrial and research experience.
Process modelling, simulation and instrumentation experience.
