

Mahmoud Osama Mohammed Elwadie Abdelsalam , PhD

Education & Experience

- April 2018 – Now, Acting as Head of Graduate Engineering Studies Department at Arab Academy for Science and Technology – Smart Village campus.
- October 2016, PhD degree from Staffordshire University at the faculty of computing, engineering and Sciences, Stoke Campus.
- More than 10 years' experience in consultations and business development of electrical systems and renewable energy market.

Training courses in the field

- March 2014- Risk Assessment course – Staffordshire university.
- January 2013 – Nakaa academic education Accreditation course.
- December 2011 – Withdrawable MCC manufacturing at Greiner Germany.
- September 2010 – Manufacturing of fixed switchgears up to 4000A at ABB Germany.
- January 2010 – Quality management auditing according to ISO 9001 at BSI Egypt.

Memberships:

- IEEE organization member.
- IET organization member.

Research Interest:

- Renewable Energy integration with the grid, Power systems and Renewable Energy protection, Power Electronics, Control application in renewable energy systems.
