

Dr. Marios Theristis

is a Postdoctoral Researcher at the PV Technology Laboratory of the University of Cyprus where he has also been managing research and educational projects since 2016. His current research interests include the photovoltaic performance modelling and monitoring, reliability, failure diagnosis and power forecasting. Prior to joining the University of Cyprus, he was a visiting researcher at the CEAEMA of the University of Jaén, Spain (2016), a research fellow at Fraunhofer CSE, Albuquerque, USA (2015) and a research associate at the SRISL of the NCSR "Demokritos", Greece (2010-2011). He is currently appointed as a MC Substitute for Cyprus at the EU COST Action PEARL-PV and the Vice Chair of WG5: PV in grids. He has authored more than 40 publications and he is also a frequent reviewer for numerous journals including the IEEE Journal of Photovoltaics (Golden Reviewer 2015-2018) and Elsevier Solar Energy. Dr. Theristis received his Dipl.-Ing. in Electrical and Computer Engineering from Democritus University of Thrace, Greece (2011) and his PhD from Heriot-Watt University, UK (2016).
