## 1 Event Description

### ICT4EDU Project Orientation Day at the Faculty of Education – Suez Canal University

The Faculty of Education at Suez Canal University recently organized an orientation workshop titled **"Entrepreneurship for Educational Technology Specialists"** under the supervision of Dr. Nihal Lotfy, Lecturer in Educational Psychology and European Union Project Coordinator, and Dr. Basem Abdelghany, Lecturer in Educational Technology and Artificial Intelligence Specialist. This workshop was part of the ICT4EDU project's training activities, aimed at enhancing knowledge in educational technology and entrepreneurship.

During the orientation day, the workshop addressed several critical topics, including the fundamentals of educational technology and tools designed to improve teaching and learning processes. Discussions covered the role of artificial intelligence in education and how gamified educational tools can enhance student engagement. Participants were introduced to cutting-edge technologies like virtual reality and augmented reality, which hold the potential to revolutionize learning experiences. The importance of e-learning environments and Learning Management Systems (LMS) as essential components of modern education was also emphasized.

The workshop also highlighted entrepreneurship opportunities for educational technology specialists, showcasing how they can contribute to this rapidly evolving field. Additionally, participants were introduced to prominent companies in the region, such as Nahdet Misr and Selah El-Telmeez, which actively seek skilled educational technology experts.

This orientation provided participants with valuable insights into both the technological and entrepreneurial aspects of their field, aligning with the ICT4EDU project's goal of empowering educational professionals with the skills needed for future innovation.

## 2 Agenda and/or announcement poster
