1 Event Description

Al-Azhar University hosted its **3rd In-House Training** on the topic of *ICT-Enabled Education for Sustainability in Early Childhood Teaching, Learning, and Curricula*.

This training brought together representatives from various organizations across different sectors, reflecting a collaborative effort to enhance early childhood education through technology.

These topics were presented by distinguished professors who recently attended an international workshop in Portugal titled *ICT-enabled Education for Sustainability in Early Childhood Teaching, Learning and Curricula*. The knowledge and techniques gained from this workshop were expertly delivered to the participants at Al-Azhar University.

This training aligns with the ongoing project to enhance faculty members' competencies, further contributing to the university's broader goal of integrating cutting-edge educational technologies into academic practices.

2 Agenda and/or announcement poster
