- **Event Description**

ICT4EDU lab funded by the European Union was opened by the President of Palestine Technical University-Kadoorie Prof. Dr. Hussein Shanak. The opening ceremony and inauguration of the lab was in the presence of the Deans, academic staff and representatives of the Student Union Council and the Student Youth Movement.

ICT4EDU LAB aim at enhancing information and communication technology competencies for early childhood teachers in higher education institutions in the Middle East and North Africa region, affiliated with the College of Information Technology and College of Arts and Educational Sciences.

PTUK project coordinator, Dr. Mahmoud Jazzar, explained that the project aims to develop new educational courses and support tools using information technology, in addition to enhancing teachers' skills through extensive training workshops. Dr. Jazzar pointed out that the "ICT4edu" laboratory seeks to improve the quality of information and communication technology competencies among early childhood teachers in nine high education institutions in Jordan, Palestine and Egypt. Through this project, teachers have an opportunity to learn how to use modern technology in the educational process, which contributes to improving their skills and enhancing students' interaction.

The laboratory was prepared with the latest computers, interactive writing plans, and programs to edit and create video, which contributes to enhancing the educational process by using visual media to prepare interactive and attractive educational materials.
