Event Description

The University of Jordan (UJ) has organized the Jordan National Workshop in partnership with Mutah University (MU) and Irbid National University (INU). UJ organized the national workshop for the Jordanian universities participating in the ICT4EDU project at the School of Information Technology at the University of Jordan and it was also broadcasted online on ZOOM, with the participation of Jordanian partners, non-Jordanian project partners and some stakeholders.

In the workshop, partners from UJ, MU and INU presented their updated courses, The development process of each course included a careful review of each course syllabus and updating course objectives to meet SDGs. Examples of the highlighted SDGs were: insuring inclusive and equitable quality education (SDG4), promoting peaceful and inclusive societies for sustainable development (SDG 16), and creating inclusive societies (SDG 5). Furthermore, to achieve the ICT4EDU objectives, the developed courses were designed with multidisciplinary components and ESD competences.

In conclusion, ICT, ESD, and SDGs were all included in the UJ-developed courses. There is one learning assignment and a relevant bibliography for each unit. In each developed course there was an alignment between learning outcomes, content, learning assignments and final evaluation. The developed courses implemented a wide range of learner-centered teaching strategies related to interdisciplinary approach and real-life, including case studies, simulation, games, discussions, and project-based learning.

The updated courses were discussed with the partners and feedback was collected. The main points discussed are:

- The possibility of making the Social Media course mandatory instead of an Elective.
- Making a description of the Social Media course to encourage students to take this important course.
- Encouraging enrolling males in the Class Teacher course since it was mentioned that only females take it.

Co-funded by the
Erasmus+ Programme
of the European Union

-Including more activities in the courses.

The presentations presented in the workshop can be found here: [Presentations - Jordan National Workshop](#)

Press release/social media

<https://www.facebook.com/share/p/CSHquMvnaax9h7sX/>

The image shows a Facebook post from ICT 4 EDU, dated May 15, 2024. The post is in Arabic and invites participants to a national workshop for the ICT4EDU project. The workshop is scheduled for May 29, 2024, from 10:00 to 13:00, at the Jordanian University. The post includes a registration link: <https://forms.gle/yoZn6Puto3twSeMX6>. Below the post is a flyer for the workshop. The flyer features the ICT4EDU logo, the European Union flag, and logos of partner institutions. The text on the flyer is in Arabic and provides details about the workshop, including the date (May 29, 2024), time (10:00 AM - 1:00 PM), and location (Jordanian University). It also includes a registration link: <https://forms.gle/FQxxydX2VMzqP4Hz8> and a QR code. The flyer also mentions that the workshop is co-funded by the European Union and aims to enhance ICT skills for teachers and students in the Jordanian region.
