1. Introduction

Following the successful participation of PTC team member Dr. Ezzaldeen Edwan in the Padova training held from 23-27 September 2024, the team organized an in-house training session for the lecturers of the Technology Education program at PTC, as well as other team members who were unable to attend the external training. The goal of this in-house training was to share the knowledge gained with a broader group of academic staff at PTC. Due to the ongoing conflict in the region, the workshop was conducted online via Zoom on 13.11.2024 at 12:00 AM Palestine Time.
