1 Event Description

On December 12 2025, a training session was held at the ICT4EDU Lab at UJ to train university students on the use of the Camtasia. Camtasia is one of the most powerful video editing software. Students can use its features for creating, editing, and sharing videos online. With this application, they can develop stunning visuals for creating tutorials, guides, presentations, slideshows, and other multimedia content. The training was given by ICT4EDU team member Prof. Saleh Sharaeh.
