

Ms. Yasmeen Abu Hasirah

Yasmeen is currently working at Palestine Technical University as the head of the training department at Kadoorie e-Learning center. She has been working since 2011. She has a master's degree in computer science from the University of Quebec in Montreal (UQAM). She has a demonstrated history of working in information technology and e-learning skills. Her responsibilities at PTUK are supporting the digital learning environment, including course design, development, and implementation. She also delivers multimedia content and provide ongoing resources and digital learning tools like assignments, quizzes, and forums for tutors and students.

Yasmeen have taken part in many international projects. Such as the Palestinian Academic and Agribusiness Cooperation project "PAAC" funded by NUFFIC / Maastricht University (Netherlands), and ROMOR FAIR Research Data Management Project funded by Erasmus+ / Parma University, (Italy). I am a member of the e-Learning and Open Learning Sub-Network of the Union of Universities of the Mediterranean area UNIMED. She is speaker at fostering the creation of Open Education Ecosystems in the Mediterranean hosted by UNIMED- Rome, Italy. She has been participating in the Kazan World Youth Summit in Kazan/Russia, in 2022, published two papers, the first one in the field of data mining and artificial intelligence, and the second in distance education under Oppression: the case of Palestinian Higher Education.
