

ICT4EDU Aims

1. To Identify the student teachers' levels of digital competence when entering teacher education and compare across institutions.
2. To identify, test and mainstream best practices and innovative methods of participation particularly in context of ECE digital competences.
3. To enhance professional competences and skills of teaching staff through train of trainers workshops in contemporary pedagogical approaches, methodologies and educational technologies.
4. To improve the integration and interaction of the different components of the system (children, practitioners, researchers, families, community).
5. To deliver new/updated ICT-based courses in psychology, pedagogy, methodology of teaching, and technology enhanced learning at the PC HEIs.
6. Share materials and teaching activities for teachers through online toolkit, workshops, seminars and conferences.

Enhancing ICT Competencies of
Early Childhood Educators at
HEIs in MENA Countries

01/01/2023 - 31/12/2025

Erasmus Plus Project:

Capacity Building in the field of
Higher Education (CB-HE)

Objectives and Aims:

CBHE Projects

The Capacity Building in Higher Education (CBHE) action supports international cooperation projects based on multilateral partnerships between organisations active in the field of higher education. It supports the relevance, quality, modernisation and responsiveness of higher education in third countries not associated to the Programme.

Objectives

o The Main objective of (ICT4EDU) project is to enhance the quality of ICT competencies of early childhood teacher's educators in the (9) higher education institutions in Jordan, Palestine and Egypt in line with advance EU practices, thereby enhancing the quality of the education in pre-schools in Jordan, Palestine and Egypt.

o This wider aim will be achieved through completion of the set of specific objectives concerned with the areas where the measures should be applied
