EU experience for Jordan and Syria

# EGREEN

Development of Enviromental Engineering and injection of climate change concept for Undergraduated curriculum

2016-2019

**Type:** Erasmus+ Programme  
(Capacity-Building projects in the field of Higher Education (E+CBHE))

**Grant Holder:** The University of Jordan

**Project Number:** 573927-EPP-1-2016-1-JO-EPPKA2-CBHE-JP

## OBJECTIVE

- ✓ Develop, integrate, accredit and evaluate some courses at a B.Sc degree program.
- ✓ Engage faculty in the development of interactive instruction techniques for lectures and laboratory courses and sharing experiences with EU partner universities.

EGREEN aims to enable Jordanian universities face the “environment challenge” by modernizing their ‘environment’ curricula, developing and implementing a sustainable B.Sc degree programme,

## General Aims

- ✓ Develop and implement course content using distance learning .
- ✓ Extend services and training in collaboration with the local and regional industry and community.
- ✓ Improve the staff capacity of Jordanian, Syrian universities by providing training and upgrading opportunities in the EU for aspiring young and women academic members of staff.

Compatible with European standards and meets the market needs of the emerging knowledge-based society by strengthening environmental teaching.

## Outcomes

- Newly prepared teaching to be included in the regular programs of the participating universities.
- Introduce ECTS environment course
- Improved the knowledge and pedagogic experience for staff by training abroad.
- Graduate well prepared for the labour market
- Introduce Distance learning
