About Second online workshop Creative Art Therapy

HEALING Project staff from the school of arts shared their experiences and knowledge of how the arts can be used in different cultural and medical settings through conducted creative Art therapy (2) training workshop which was held within the art therapy project series of training workshops via ZOOM.

Objective of the training workshop

The main objective after introducing the project aim which is to represent and encourage the development of Arts Therapy education in partner countries and its expected outcomes is to introduce the trainees about the importance of art therapy in their lives, which was mediated by movement and its role in relieving tension and anxiety that effectively control the life of society.

Topics of the training workshop

Expressive Art therapy that includes:

- A brief introduction to Movement Therapy
- Exercises
- Closing

There was an excellent number of attendees in the training workshop, as well as the interaction of audience participation in the exercises that have been training.

After completing the practical workshop, the project coordinator; Prof. Ahmed Al-Salaymeh thanked the trainers and the participants for the distinguished and effective interaction.

Feedback of the training workshop

A link of evaluation is sent to the participants to evaluate the workshop and send their feedback.
