

Prof. Salman Ajib

Head of Renewable Energies and Decentralized Energy Supplying
Department - TH OWL

Prof. Ajib is a member of the teaching staff at the TH OWL and head of the department “Renewable Energies and Decentralized Energy Supplying”. He has long experience at the field of using of renewable energies, especially for cooling, air conditioning and heating purposes. He has many experiences at the field of coordination and management of Tempus-and Erasmus+ projects. He was the coordinator of the two projects CD-JEP-31109-2003(SY) and UM-JEP-33048-2005 (SY). He has also many experiences at the field of preparing of curricula, teaching and managing of training courses for lifelong learning. He was an active partner and local coordinator by the EU funded (Erasmus+ funded) projects MAPEC and EGREEN. He is also the local coordinator of the Projects HANDS and ECO-CAR. He will act in the project as an active partner, local coordinator, manager and lecturer for some subjects related to the content of the project.

Prof. Ajib has more than 110 publications at the fields of engineering education, especially renewable engineering and its applications ([Veröffentlichungen: Umwelt - TH OWL \(th-owl.de\)](https://www.th-owl.de/veroeffentlichungen/umwelt)).
