Vocational training center for undergraduate university students and teachers in Jordan (VTC)

Aims to institutionalize vocational training
within the Jordanian universities to become
a main component of students' life at the
Jordanian universities

ERASMUS+ Programme - VTC Project Number:
561708-EPP-1-2015-1-DE-EPPKA2-CBHE-JP

What is VTC Project?

VTC is a three years project started on October 15, 2015, and funded by the European Union through Erasmus+ programme that concentrates on providing Jordanian students with competencies and skills needed by the market.

The project aims at institutionalizing the vocational training within the Jordanian universities so that it becomes a main component of students' life at the university.

The EU experience is a major component in the success of the VTC project. The EU countries in this project including Germany, Spain, Portugal, and Slovakia have an excellent experience in the fields of vocational skills training.

Specific Objectives

- Construct a vocational training center for graduate and undergraduate students in partners universities.
- Apply a vocational training for the students to enhance and to develop their abilities and to build bridges between their theoretical study and vocational training skills.
- Develop a vocational training program in order to create and publish common methodology and legal documentation for the lifelong Learning, E-learning and Distant Education, practical training for all universities in Jordan in accordance with European standard.
- Develop and enhance the staff abilities who will lead the vocational training.

Project Activities

- Conduct assessment studies for the needs of students and analyse the qualifications required by the labour market.
- Develop a data base for universities/ companies.
- Conduct workshops and trainings in career planning and career start up.
- Establish an online career information system.
- Involve the public/private employment sector in activities/services of the VTC.
- Organize an annual job fair.

Project Timeline
